FROM THE PRES:

First of all, I hate to inform you of the passing of my father, Ralph Davis. Ralph passed away Sept. 25, 2012. Just shortly before our reunion here in Dayton.

Our reunion this year in Dayton went very well, and I hope that everyone that attended had a good time. This could not have been done without the time and dedication of quite a few people and I would like to take up a little space here and thank them.

First my wife Liz, who put everything together for us from the trips to the museum, hotel and meals. My sister Lisa and her husband Keith for cooking the meals and helping with coolers and making all kinds of runs for me to bring all the things I forgot. My brother Kerry and his wife Karen and my son Shawn and his wife Missy for all the help and support that they gave me.

At our membership meeting it was decided that we would keep the Bomb Group together and that we would have a reunion this year. It was decided by the

board that we would join up with the 492nd this year in San Antonio, Texas June 27th to June 30th 2013.

At this meeting we also decided that POOP FROM GROUP would continue, but will change to a digital format. We will need everyone that wants to receive POOP to contact us (more information in next column from Brian Mahoney) and give us your email information. If you don't have an email address or do not have access to the internet, we will still be putting out a limited number of printed POOP so no one just left off the list.

The new digital POOP will be edited and published by Andy Wilkinson. It will be in a PDF format. If you do not have a PDF reader you can download one for free from Adobe. We would like to thank Andy for taking this on. He will need all our support and any information that you feel needs to be in POOP will now go to Andy. I will still be a contact for you and for Andy to make sure the flow of information is not disrupted.

FROM BRIAN MAHONEY:

FROM BRIAN MAHONEY:

We Want Your Email Addresses! Please Read! -*Brian Mahoney*

Starting with the very next 'POOP' we will be distributing the newsletter as PDF file, attached to an email. Your board is keen to reduce costs but also not leave anybody behind. If you do not have the ability to receive the newsletter by email, send a note today to me (address in the masthead) and we will see that you still get a printed version in the future.

I will confess, that even as one of the heavy adopters of new technology, I have long preferred to hold the paper in my hand. but at nearly 60, now, I also am seeing the advantage of getting a nice clean electronic newsletter, which I can easily enlarge in the Acrobat Reader, and see all the sharp details in the words and the photos. I say this in hopes that it may encourage any who are hesitant, to give it a try.

We only have email addresses for a handful of our nearly 800 current subscribers, but hope that most of the rest of you will be able to switch to the electronic version, allowing us to save a pretty penny and still keep our party going! **SEND ME AN EMAIL RIGHT AWAY. Please use "467 news" in the subject line, and I will note the information. BriCamera@MindSpring.com.** We also want you to keep us current with your regular mail address... if an email bounces, we can at least send you a note and remind you to update us. We want to stay in touch! Your phone, while optional, would also be a nice back-up plan. I know that many of you veterans are moving late in life, and we want to be able to follow you!
Thanks, and best wishes!

FROM PERRY WATTS:

Dear Bob, Committee Officers, Veterans, Family Members and Friends:-

Since writing my previous letter in May 2012 and published in the May edition of the POOP Journal we have had a visit on 25 August to the Second Air Division Memorial Library at Norwich by two family members, namely Yvonne (daughter of Mike Caputo (dec'd)) and Brian. As a matter of interest it was Mike who made the splendid large scale model of the B-24

"Witchcraft" which he kindly donated to the 2 AD Memorial Library where it is displayed suspended from the ceiling near the entrance door. It was really wonderful to listen to Yvonne read some very interesting and personal paragraphs from the book that she has written relating to her dear Dad. Following which Yvonne kindly invited Memorial Trust Governor

Richard Middleton, David Hastings and I to join her and Brian for lunch at the Assembly House (just across the road from the Library).

On Saturday 29 September Jill and I attended the annual reunion of the Kirby Kids at Kirby Bedon and it was a great pleasure to meet up with 467th Group Veteran Frank Bales and his charming wife Pauline and also their niece and her husband. Frank was the co-pilot on the B-24 "Broad and High" which battle damaged and out of fuel unfortunately crash-landed at Kirby Bedon (on the outskirts of Norwich and about 7 miles from Rackheath) on the return flight from the 467th Group mission to Woippy, France on 18 August 1944.

It is appropriate to mention that Tilia Properties who own several of the former buildings/sites on the Industrial Site (former WW2 airfield Technical Site) at Rackheath have named a building they recently completed 'The B-24 Cafe'. The building is quite large and contains a meeting room as well as a fairly large dining area. It was the Chairman/Proprietor of Tilia Properties, namely Mr. Nick Hovey, who decided to have the various roads on the Industrial Site with names relating to the 467th Group such as – Albert Shower Road, Ramirez Road and Witchcraft Way. The company also restored and own the former Control Tower and the remaining T2 Hangar.

Now the sad news -- Tommy Dungar, a former resident of Rackheath who had a wealth of knowledge relating to the activities of the 467th Group during WW2 and at that time being a 15/16 years old youngster, passed away on 26 July aged 83 years. – On 14th September another 467th Group stalwart, namely Denis Sporle passed away at 80 years of age. As some of you may recall it was Denis, a lifelong resident of Barsham, Suffolk, who arranged and organised the building of the splendid Memorial to Stalie Reid and his fellow Crew Members who sadly lost their lives when their B24 "Miss-Fire" crashed at Barsham on the night of 22 April 1944 on their return flight from the Group mission to Hamm, Germany.

Some other local news – For those who have visited the area and for those Veterans who may have visited and imbibed there during 1944/45 another piece of information relating to "The Green Man" Pub at Rackheath. Unfortunately the publican Lestyn Thomas decided to close the Pub as operating the establishment was not profitable.

I have been busy during the past few months researching and writing another book – 228 pages, including a vast number of photographs. It is a detailed history of the most famous B24 in the United States 8th

Army Air Force in WW2 – the B-24 “Witchcraft”. Now awaiting publication.

Wishing You a Very Happy and Healthy New Year
Best wishes to you all from Jill, James and myself.

Fred's son Mark joined Cindy Stevens and Brian Mahoney for lunch in October, and we found him to be very much 'on his game' still, with plenty of good stories to share. Some of the humor may have rubbed off on his son Mark, who decided that his old man, our last living squadron CO from the group, deserved a special 'field promotion,' and made him a four-star general NUISANCE. On the wall behind Fred is a great keepsake from 'his boys' toward the end of the war in Europe. The text reads: "In fond remembrance of the Sixteen Month period of comradeship that has endured through the training rigors of the Salt Flats of Utah and a combat tour with the 8th Air Force in the European Theatre of Operations... to Major Fred Earnest Holdrege, Jr., A Fine Officer, An Eager Eagle, A Pal. This Testimonial of our Esteem is presented by the Enlisted and Commissioned personnel of His First Military Command. —Rackheath-East Anglia-Great Britain-February 1945—"

Fred later made full colonel in his career with the USAF.
